

Eligible Manufacturers of Drain-Water Heat Recovery Systems under the 2009/2010 Good Energy Rebate Program

Currently, drain-water heat recovery systems listed below and manufactured by the following companies are eligible for the Good Energy rebate:

EcoInnovation Technologies Inc. (ECO-GFX)
Watercycles Energy Recovery Inc. (Watercycle)
Renewability Energy Inc. (PowerPipe)
ReTherm Energy Systems Inc. (ReTherm)

Models with an efficiency ranging from 30 to 42%:

EcoInnovation Technologies
S3-40 (75 mm/ 3 inch drain at 39% steady state)
S4-40 (102 mm/ 4 inch drain at 39% steady state)

Watercycle
DX-3058 (75 mm/ 3 inch drain at 42% steady state)
HX-3029 and HX-3056

ReTherm
C3-40

Power Pipe
R3-36

Models with an efficiency of 42% or greater:

EcoInnovation Technologies (ECO-GFX)
G3-40 (75 mm/ 3 inch drain at 46% steady state)
S3-60 (75 mm/ 3 inch drain at 49% steady state)
S4-60 (102 mm/ 4 inch drain at 51% steady state)
G3-60

Watercycle
DX-4048 (102 mm/ 4 inch drain at 44% steady state)

PowerPipe
R3-60

Eligible systems have been tested by an independent testing facility recognized by Natural Resources Canada.

Note: Homemade systems are not eligible for the Good Energy Rebate Program
